PCR Thermal Cycler Genesy

HIGH PERFORMANCE INSTRUMENT THAT FITS THE REQUIREMENTS OF TODAY'S SCIENTIST

Genesy--The new PCR thermal cycler from Tianlong, is quite easy to operate with a 7" color LCD touch screen. By taking advantages of its excellent thermo-block, Genesy brings you homogeneous and accurate temperatures,rapidly and precisely controlled ramp rates and fast and reproducible PCR cycles. The programming of Genesy is alsoremarkably simple and intuitive. Thanks to all these advantages, Genesy is your ideal equipment for PCR.

REPRODUCIBILITY

- > Genesy block features remarkable gradient technology to ensure that ramp rates are identical in both gradient and normal mode.
- > Optimized perform assay crosses a maximal 40°C range via 12 gradient temperatures.

FLEXIBILITY

- > 1000 experiment protocols can be saved in the machine
- > Protocols can be easily shared between different Genesys via USB flash disk, personal protocols can also be saved in your USB flash disk to quickly setup your own experiment on any Genesys.

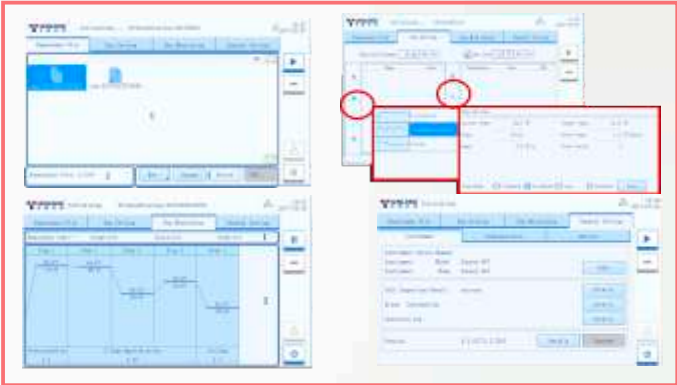

Intuitively software design, specialized user training is not required, friendly interface make it simple even for first time users.

Compact design with very small footprint, very easy to be easily moved
